

ENERGY INFORMATION

Greetings from Glenn 20th November 2005.

The re-awakening of the Human Race has begun, and it started at the time of the great leaders Jesus - Mohamed - etc . and more recently due to the intervention of the photon energy in the 1930's, the most recent event happened Thursday the 27th October 2005, the human race moved into its next stage of re-awakening.

At the beginning of November when I noticed change it appeared that only a small group of humans re-awakened, but with clinical testing I have found that all humans have been affected. Since that Thursday there has been 2 further barriers between the parallel universes removed and now the human race has 320 intuitive fields opened. I perceived that humans had 20 intuitive fields before the change, these fields regulate our understanding and awareness; fields that receive knowledge via our surroundings, with the Universe and other parallel universes etc.

Because we can now communicate across these parallel universes, the people in these universes can communicate with us. We are now receiving from the people of the parallel universe's help and positive energy, this aide will help us in rebuilding life as we knew it before the invasion 8,000 years ago.
