

ENERGY INFORMATION

Greetings from Glenn July 2008:

I was reminded by my daughter and a number of people that I have not updated my web site for some time and for this I am remiss. I like a lot of people have been working with life's experience (heavy going at times). I am endeavouring to re-focus into environmental change but I am still quite focused into my own family energy change.

The energy changes happening around the world, I see as power wrangling. America going through huge change..... large corporations trying hard to maintain control of the masses. These very large groups seem to be over reacting, seemingly manic....this observed stress is due to the pressure of the positive energy increase in our galaxy.

The photon energy is now consistent, though I am not sure if it is at its maximum potential yet, and I must say I am not quite sure what maximum potential means! Any negative energy left in our galaxy is locked into networks co-ordinating manipulation of the environment and so still manipulating human behaviour.

The most obvious manipulation I have observed deals with large corporations trying to maintain control of the masses. The pharmaceutical groups are at present starting to control the alternative/complementary groups both homeopathic and vitamin markets. Throughout Europe homeopathic and vitamins are being reduced in potency to become inefficient so it forces reliance back to pharmaceutical products, in Canada the first effort by a very powerful lobby to bring legislation into being that will limit over the counter sales of health products and general vitamins, may only be dispensed by a Doctor as a prescription. If this legislation is accepted by the Canadian Government it may frame a pattern for other governments to be coerced into making similar legislation. Pharmaceutically trained Doctors have limited training in nutrition for the human body. The groups that have this nutritional knowledge Doctor's of Naturopathy, Doctor's of Chinese Medicine, Myotherapists and some

Nutritionalists. QUESTION will these groups be able to dispense vitamins??? So there will be a tendency for the pharmaceutically trained Doctor to insist on a drug than a vitamin for the patient.

Another more fearful issue concerning this absolute power of the Pharmaceutical company lobbies. The lobby group controls government thinking creating laws making vaccination compulsory in the majority of countries around the world this is creating conflict with the moral law of religionconfusing for parishioners.

Why? Scientists have used aborted foetal flesh in experimentation in the name of science since the 1950's, more recently using aborted foetal flesh, cell lines WI-38 and MRC-5 in vaccinations force feeding dead human flesh into live humans. The cannibalism aspect...feeding dead baby into live baby's and adults has a depth of absolute disgust like living a horror movie. [see article on this website ..."Aborted Fetal Cell Line Vaccines And The Catholic Family".]

I do feel the positive energy change is happening and the result will be positive.....patience is the order of the day..... It is interesting that the Archbishop of the Catholic religion in Australia commented in an interview on the Youth Day in Sydney recently....when asked about climate change..."I do not believe that Climate Change was a direct result of human intervention" A belief I share and many others and now that the negative energy is gone, the natural order of the Universe will happen as it should, allowing balance to once again stabilise our galaxy, the Earth and its environment. The natural mechanisms I believe, these natural mechanisms I call them Elementals are re-generating and as this happens over the next number of years so the Mother Earth will stabilise and so our society.

My word to you all is be patient with change and hold on to you're own personal worth, in doing this you will respect others and emanate energy, energy of love, and love is the divine healer.
